

WEST DES MOINES WATER WORK BOARD OF TRUSTEES MEETING COMMUNICATION

DATE: December 17, 2018

ITEM:

- 7. Recommendations from Staff
 - b. Motion – Approving Purchase of Dump Trailer

FINANCIAL IMPACT:

\$95,000 was included in Capital Outlay of the 2019 budget (00800-120-19003) for the replacement of two vehicles and the purchase of a dump trailer. \$10,495 of this budget item will be used for the dump trailer.

SUMMARY:

West Des Moines Water Works purchased a dump trailer last year to assist in repair and maintenance to the Distribution System. This trailer has allowed crews to work more efficiently with fewer vehicles on site and has also proved versatile for other routine tasks. Due to the increased efficiencies staff is recommending approval for purchase of a second dump trailer. Approval of the purchase at this meeting will allow staff to purchase the equipment in early 2019.

Two quotes were received in 2018. The low quote from last year was asked to update their quote. The quote was approximately 13% higher which is still lower than the second quote received in 2017. Staff recommends purchase of a second Midsota Model HV-14 dump trailer from Thomas Bus Sales of Des Moines, Iowa.

BACKGROUND:

The Water Works maintains a fleet of vehicles and other equipment to perform necessary repair and maintenance tasks within the water system.

RECOMMENDED ACTION BY THE BOARD OF TRUSTEES:

To concur with the recommendation of Staff and approve the request to purchase dump trailer.
